ACADEMIC PROJECT

SUGAR FACTORY
MANAGEMENT
SYSTEM

This project provides various procedures that a farmer undergoes from slicing up of sugarcane till he gets the payment or sugar. So this project provides overall requirements for the farmer as sending labors to slice up the sugarcane, classifying the type of sugarcane, billing, a farmer could also buy other bi-products made from sugarcane and generating reports. In this way the farmer is benefitted by all the procedures into one app.

BANK APP PROJECT

As a part of Training Course in ABC Technology we undertook this mini project. Bank App is web-based software used for banking. It helps improve time management. It is an application that can be used for applying loan, opening a new account, to transfer money to another account and also to your own account, check balance and change password. Hence basic operations can be done without visiting the bank.
